Re: South Inglewood Street & Drainage Improvements
Additional Funding – Bike Trail Features

To Whom it May Concern:

The purpose of this letter is to provide a cost estimate proposal pursuant to the recent discussions of alternative funding requests to construct additional bike trail features on the S. Inglewood Street & Drainage Improvements project. Pricing for the bike trail features are included in the S. Inglewood project as part of the publicly held competitive bidding process read aloud on March 5, 2019.

<u>Item</u>	<u>Description</u>	<u>Unit</u>	<u>Unit Price</u>
13	Natural Stone Retaining Wall	SQFT	\$55.00

To date, the average "feature" has been ~ 55 - 60sqft. As such, Blackstone proposes to install an additional 10 features above the contract quantity along the bike trail for **\$35,000**. Once approved, work will commence immediately under the existing S. Inglewood CMGC contract. Please let me know if you have any questions or need any additional information.
